

Job Description:

Software Engineer

AP Technology is an established software company that has been developing secure payment solutions for almost 20 years. We are looking for motivated individuals for our Engineering Organization to assist in the development of our secure payment solutions. Candidates will be self-starting with a strong work ethic and will have prior software development experience.

Essential Duties & Responsibilities may include:

Server and Data Systems

Maintain and develop data translation, file transmission, and notification software in our data centers and in customer data centers.

Requires: C#, .NET, Borland Delphi

Web Client Solutions

Create user interfaces for our web based banking solutions.

Requires: .NET, C#, ASP.NET, IntraWeb, JavaScript

Windows Applications

Maintain and create client and Enterprise Windows applications.

Requires: C#, .NET, MS SQL Server, Borland Delphi

Firmware and Device Drivers

Maintain existing firmware solutions in HP LaserJet printers.

Create solutions for new HP LaserJet printers as they are released.

Requires: C/C++, Java, Unix/Linux

Desired Skills & Qualifications

- 4 year Computer Science or Computer Engineering degree or equivalent experience.
- 3 or more years of enterprise software development experience. Firmware and/or device driver development experience a plus.
- Proficiency in C#, .NET, ASP.NET, Borland Delphi, JavaScript and/or C/C++.
- Must be able to multi-task and work efficiently on multiple projects.
- Must be able to work independently as well as in a team environment.
- Excellent interpersonal and communication skills are also a strong requirement.
